

## IT'S AN ANNUAL THING

### **Suka scored top annual reports of 2008 in the nation...again.**

That brings Suka's total to 20 awards in seven years from the Black Book AR100 Award Show, the industry's most prestigious annual report design competition. Suka annual reports were also recognized by Creativity one of the longest running international advertising and graphic design competitions as well as Graphic Design USA.

This year, Suka's designs for Bessemer Trust, Visiting Nurse Service of New York, Consumers Union, Inner-City Scholarship Fund, and New York City's YMCA were chosen among the best in the business.

And while we appreciate this special recognition from our peers, it's sound business strategy and a passion for results that drives our work — for a diverse clientele that spans the financial, healthcare, non-profit, cultural and education fields.

Based in Soho and in business since 1992, our objective for the annual reports, capabilities brochures, corporate collateral, branding and identity, e-marketing, websites and communication tools we create for our clients has remained the same: to achieve results by design.

To learn more about how Suka can drive results for your business, visit us online at [www.sukacreative.com](http://www.sukacreative.com), or call 212.219.0082 ext.123 and ask for Susan Karlin.
